Place	Empty

Format Type: Peer Learning & Problem-Solving Sprint

Difficulty: Level 2 (Intermediate)

Purpose

A collaborative, real-time troubleshooting session where participants bring **live GTM or workflow problems** they're actively facing.

No extensive presentations, this is for **operators helping operators**.

Best For

- 10–40 attendees
- Agency founders, GTM leads, RevOps, and power users
- Groups with a mix of experienced and intermediate Clay users
- Host-led but community-driven; no Clay team required

Structure

- Kickoff: set expectations + surface top challenges (10–15 min)
- Sprint round(s): small-group problem solving (25–35 min)
- Rotate groups or problems for fresh perspectives (20–30 min)
- Debrief: 1 takeaway + 1 open question per group (15–20 min)
- Optional social time (30–60 min)

Outputs

- Shared doc capturing problems, solutions, and frameworks
- Optional post-event recap for the wider community

Why It Works

Highly practical, peer-led, and produces reusable community knowledge.
