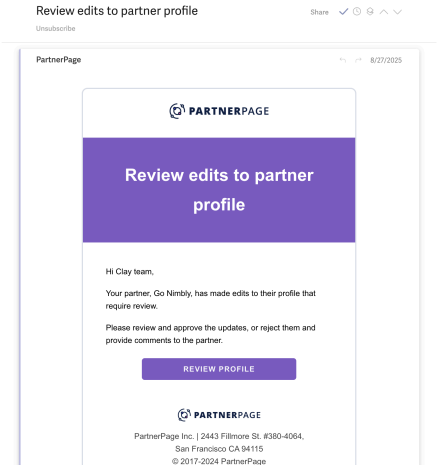
Rolling Page Edits



You'll receive an email like this one (above) that will direct you to the Partner's profile. You'll have the option to Approve/Reject the edits. The biggest review item is to ensure that Partner's aren't making claims that are incorrect.

Examples:

- Reject:
  - "#1 Clay Partner" ❌
  - "#1 Clay Partner in the USA" ❌
  - "Only Clay & HubSpot Partner" ❌

- Approve:
  - “Only Studio Tier Solutions Partner in the Netherlands” ✅

Ranking

- Ranking is based on Tiers, and then within each tier, based on Referral Revenue.
  - Clay Table: https://app.clay.com/workspaces/4515/workbooks/wb_0t8ra5sDyWgk92Qn8EG/tables/t_0t8ra76GPEWuf4zaJyK/vie workbookId=wb_0t8ra5sDyWgk92Qn8EG
- Daily Refresh
  - GTM Ops (Osman) has automated re-ranking for all partners with valid “PartnerPage ID” field filled out in SFDC.
- Manual ranking is possible in the PartnerPage Admin view.

Analytics

- 10+ Events
  - GTM Ops (Spencer) has implemented Amplitude tracking (see screenshots of events) which are not currently being used for improving the directory UX.
- Contact Form Submission
  - Clay team receives emails when Contact Forms are filled for any partner.
- There’s a lot of opportunity to improve
